

## **Application for an AirwaysCARE project/study**

### **Information for applicants**

AirwaysCARE projects can be applied for by individual AirwaysCAREs or several AirwaysCAREs working as a group. AirwaysCARE projects should be global projects. However, in case of special circumstances, regional/multinational projects may be supported as well.

Currently, [AirwaysCARE does not provide funding for projects, but can help with scientific advice and AirwaysCARE office resources](#) (network of experts, communication, statistics, medical writing, ethical and regulatory issues, obtaining funding / sponsorship, and dissemination of results). AirwaysCARE projects can be presented at upcoming AirwaysCARE meetings.

[Study leads are requested to provide study updates at least every 6 months using the project update form.](#)
